

Ellen Foncannon Stephenson is a pianist, organist, music educator, piano teacher and accompanist. She works with the Arkansas Artists in Education and is an active writer of numerous choral, keyboard and Boomwhackers® Tubes publications.

Winterwood: Finding Your Way Home, Ellen's successful CD collection of holiday arrangements, will be followed by a CD of original orchestrated keyboard compositions - to be released in 2015.

Studies at Fort Hays State University and the University of Kansas prepared her for a life-long career in the music education and business sectors. In the classroom, studio, convention hall or stage, music is always her language of choice. She has been playing the piano and organ for church since she was ten and is thankful for the gift of music in all our lives.
